### Coverage Gap

Most Medicare drug plans have a coverage gap (also called the “Donut Hole”). This means that there is a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches **$4,130**. Not everyone will enter the Coverage Gap.

After you enter the Coverage Gap, you pay the amounts in the table below for covered drugs until your costs total **$6,550**, which is the end of the Coverage Gap.

### Catastrophic Coverage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) have reached **$6,550**, the plan will pay most of the cost for your drugs. Your share of the cost of covered drugs will be the greater of:

- 5% of the cost
- **$3.70** copay for generic (including brand drugs treated as generic) and **$9.20** copayment for all other drugs.

### Out-of-Network

If you get your drug at an out-of-network pharmacy, you will pay the same cost-share you would pay for a 30-day supply at an in-network retail pharmacy. If you reside in a long-term care facility, you would pay the standard retail cost-sharing at an in-network pharmacy.
